• Polished Nickel
• Satin Nickel

WARRANTY

• Limited Lifetime

Consult your local ROHL showroom for additional information and specifications. For complete warranty details and a list of showrooms, go to www.rohlhome.com.
SYSTEM REQUIREMENTS
To ensure the optimum performance and customer satisfaction, please adhere to the following:

Flush out all pipe work prior to installation.

Maximum operating pressure: 75 psi

NOTE: Pressures over 75 psi will require that the house have a pressure regulator installed to limit the pressure below 75 psi.

Maximum hot water temperature: 145°F

If the water temperature exceeds 145°F an approved tempering valve must be fitted.

Maximum flow rate: 8.2 US gallons/minute at 60 psi flow pressure.

Hand shower flow rate is 2 gpm.

Please follow local code guidelines for Asse 1016.
Care and Maintenance: After use, wipe down with a soft, dry cloth. For all chrome plated surfaces clean this product with warm soapy water and then dry with a dry soft cloth. Nickel plated, satin and Inca brass finishes should be cleaned with a soft cloth and warm water. Then dry with a dry soft cloth. Do not use cream cleaners or cleaning agents containing a corrosive acid or scouring agent including: Softscrub, Comet, Ajax and Bonami, as these may damage the surface of the faucet. Do not use any spray cleaners with ammonia or alcohol like Windex, 409 or Fantastik. Any use of unsuitable cleaning agents causing damage to the surface will not be covered by the warranty. For further understanding, please refer to your ROHL Homeowner’s Guide to Care & Maintenance brochure.

WARRANTY: Warranty is limited lifetime. See ROHL website for details. (www.rohlhome.com) A basic in-line filter system is recommended for the house to protect any debris from entering the water supply line to the house (i.e. due to construction or service work on the street water main).
INSTALLATION INSTRUCTIONS

ROHL COUNTRY / MODERN FREE STANDING TUB FILLER
